

MAKE MUSIC MAGICAL

Accessible musical instrument and resources, designed for all children

EMPOWERING YOUR PRACTITIONERS AS MUSIC LEADERS

INSTRUMENT

accessible, engaging and enriching

- Learn about music and sound through exploration.
- Pick and place the colour coded 'bops' anywhere on the instrument
- Stack bops to create chords
- 10 different instrument sounds, giving opportunities for language and listening development
- Enrich music in your setting, without a music expert

SUPPORTING DEVELOPMENT

social, emotional, physical, cognitive

- Opportunities to discuss, listen and share
- Encourages fine and gross motor skill development
- Engaging broad cognitive skills through play
- Mastery experience and confidence building

MUSIC MAKING FOR ALL

challenge, enjoyment and inclusion

- Easy to follow, colour-coded sheet music
- Opportunities to encourage grapheme recognition
- Play licensed popular songs they know!

5 STAR REVIEWS

Don't just take our word for it...

"I work in the SEND education sector and have been using SoundBops with pupils who have severe physical disability. It is honestly been a game changer as it has enabled pupils to be able to independently access and electronic musical instruments and also have the potential to perform the same music as their peers using Standard format keyboards."

- Simon Harris, Headteacher

"The pupils enjoy sorting the bops, the different instrument settings and the easy to follow colour patterns... it's a great gateway to start learning music."

- Gavin Shakespeare, Therapies Lead, Ysgol Pen Coch
